**DESCRIPTION:** CRAZY AARON PUTTY LINE

---

Subject sample(s) has/have been analyzed by our Warwick, R.I. laboratory with the attached results.

References: 16 CFR, part 1303, ASTM E 1645, ASTM E 1613, CPSC-CH-E1001-08, CPSC-CH-E1002-08, ASTM F963-08 and EN-71. The specific methodologies are listed in the methods column of the Certificate Of Analysis.

Data qualifiers (if present) are explained in full at the end of a given sample's analytical results.

The Certificate of Analysis shall not be reproduced except in full, without written approval of ToyTestingLab.

Results relate only to samples submitted to the laboratory for analysis.

Test results are not blank corrected.

CPSC Identification # 1097 and A2LA Number: 2815.01, 2815.02

If you have any questions regarding this work, or if we may be of further assistance, please contact our customer service department.

We certify that the following results are true and accurate to the best of our knowledge:

Physical and Mechanical Testing – ASTM F963-11

<u>Section, Scope</u>	<u>Result</u>
<b>4.1 Material Quality</b> Sample was manufactured of clean materials and is visually free from infestation.	<b>Pass</b>
<b>4.2 Flammability</b> Flammability testing, in accordance with Annex A5 of ASTM F963-11, was not performed.	<b>Not Assessed</b>
<b>4.3 Toxicology*</b> Soluble Heavy Metals analysis, as referenced in ASTM F963-11 Section 4.3.5, was not performed.	<b>Not Assessed</b>
<b>4.4 Electrical/Thermal Energy</b>	<b>NA</b>
<b>4.5 Sound Producing</b>	<b>NA</b>
<b>4.6 Small Objects</b> Small Object testing was conducted according to ASTM F963-11 Section 4.6. The Thinking Putty Creatures contains as-received small objects, specifically the plastic eyes. Because it is intended for children between the ages of three and six, the principal display panel of the packaging must display a proper choking hazard warning label. Refer to attached image "6.26.13.pdf" which displays a sticker which the client has confirmed will be affixed to the front panel of the packaging prior to distribution. Additionally, the putties from the product line are exempt from the requirements according to Section 4.6.1.2 of ASTM F963-11.	<b>Pass</b>
<b>4.7 Accessible Edges</b> Accessible Edges testing was performed in accordance with ASTM F963-11 Section 4.7. Product passes the requirements, as no potentially hazardous sharp edges were detected prior to or following use and abuse testing.	<b>Pass</b>
<b>4.8 Projections</b>	<b>NA</b>

**Physical and Mechanical Testing – ASTM F963-11 (cont'd)**

<b>4.9 Accessible Points</b>	<b>Pass</b>
Accessible Points testing was performed in accordance with ASTM F963-11 Section 4.9. Product passes the requirements, as no potentially hazardous points were detected prior to or following use and abuse testing.	
<b>4.10 Wires or Rods</b>	<b>NA</b>
<b>4.11 Nails and Fasteners</b>	<b>NA</b>
<b>4.12 Plastic Film</b>	<b>Exempt</b>
The products which come in the 2" small tins are sold with a shrink wrap packaging around the sides. According to Section 4.12.1 of the regulation, this wrap is considered exempt.	
<b>4.13 Folding Mechanisms</b>	<b>NA</b>
<b>4.14 Cords, Straps, and Elastics</b>	<b>NA</b>
<b>4.15 Stability and Overload Requirements</b>	<b>NA</b>
<b>4.16 Confined Spaces</b>	<b>NA</b>
<b>4.17 Wheels, Tires, and Axles</b>	<b>NA</b>
<b>4.18 Holes, Clearance, and Accessibility of Mechanisms</b>	<b>NA</b>
<b>4.19 Simulated Protection Devices</b>	<b>NA</b>
<b>4.20 Pacifiers</b>	<b>NA</b>
<b>4.21 Projectile Toys</b>	<b>NA</b>
<b>4.22 Teethers and Teething Toys</b>	<b>NA</b>
<b>4.23 Rattles</b>	<b>NA</b>
<b>4.24 Squeeze Toys</b>	<b>NA</b>
<b>4.25 Battery Operated Toys</b>	<b>NA</b>
<b>4.26 Toys Intended to be Attached to a Crib or Playpen</b>	<b>NA</b>
<b>4.27 Stuffed and Beanbag Type Toys</b>	<b>NA</b>
<b>4.28 Stroller and Carriage Toys</b>	<b>NA</b>
<b>4.29 Art Materials</b>	<b>NA</b>
<b>4.30 Toy Gun Marking</b>	<b>NA</b>

CERTIFICATE OF ANALYSIS

Client: Crazy Aaron's Puttyworld  
Work Order No. 1302-03295  
Date Received: 02/14/2013

Approved by: 

ToyTestingLab

Product: Crazy Aaron's Thinking Putty Product Line

**Physical and Mechanical Testing – ASTM F963-11 (cont'd)**

<b>4.31</b>	<b>Balloons</b>	<b>NA</b>
<b>4.32</b>	<b>Certain Toys with Nearly Spherical Ends</b>	<b>NA</b>
<b>4.33</b>	<b>Marbles</b>	<b>NA</b>
<b>4.34</b>	<b>Balls</b>	<b>NA</b>
<b>4.35</b>	<b>Pompoms</b>	<b>NA</b>
<b>4.36</b>	<b>Hemispheric Shaped Objects</b>	<b>NA</b>
<b>4.37</b>	<b>Yo Yo Elastic Tether Toys</b>	<b>NA</b>
<b>4.38</b>	<b>Magnets</b>	<b>Pass</b>

The products, specifically the Super Magnetic items, pass the requirements of Section 4.38 of ASTM F963-11. The 1-1/8" x 1-1/8" square magnet is not considered to be a hazardous magnet, as it is not a small object. Additionally, small fragments of magnet were liberated as a result of abuse testing, however, due to their size and the strength of the magnet, the fragments were determined to not exceed the flux index limit for magnets which are small objects.

<b>4.39</b>	<b>Jaw Entrapment in Handles and Steering Wheels</b>	<b>NA</b>
-------------	--	-----------

<b>5.2</b>	<b>Age Grading Labeling</b>	<b>Pass</b>
------------	-----------------------------	-------------

Product must display clear and conspicuous age grade criteria. All of the products display a choking hazard warning indicating the product is not intended for children under three years of age (8+ for the Super Magnetic products).

<b>7</b>	<b>Producer's Markings</b>	<b>Pass</b>
----------	----------------------------	-------------

The product labeling must be in compliance with Section 7.1 of ASTM F963-11 which indicates that the name and address of the producer or distributor of a product must be listed on a principal component or on the packaging. The information is listed on the outer packaging for the 4" tins and Thinking Putty Creatures. The 2" tins include a sticker on the underside of the tin. Refer to the attached image "6.28.13.pdf" which shows the sticker which the client has confirmed will be applied to the products prior to distribution.

**NA = Not Applicable**

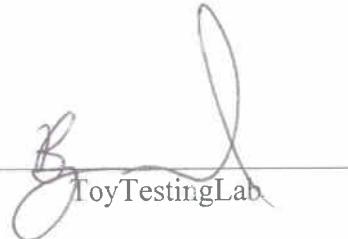

\*In regards to ASTM F963-11 Section 4.3.1 Hazardous Substance requirements, the lab does not make determinations on whether a product is "irritant, radioactive, sensitizer, pressure generating, and/or corrosive". The lab will perform soluble metals analysis, phthalate analysis, lead analysis, as well as testing in accordance with the Pennsylvania Stuffed Toy Regulations Title 34, Section 47.317 when applicable.

Product: Crazy Aaron's Thinking Putty Product Line

**Supplemental Regulations**

**CFR: Foreign Origin**

**Pass**

According to 19 CFR 134, products of foreign origin must be marked legibly and permanently with the country of origin and name of the ultimate producer. This products were produced in the USA and are labeled as such.

**CPSIA Section 103: Tracking Labels**

**Required**

The Consumer Product Safety Improvement Act of 2008 Section 103(a) requires that products and their packaging display permanent distinguishing marks in the form of a tracking label which would aid in identifying the location of manufacture, production date, batch, and lot information of a product for facilitating recalls involving children's products. The regulation, which applies to all products manufactured after August 14, 2009, also states that the label must be present on the product (or principal component) and the packaging to the extent practicable. "Permanent" refers to not being able to be removed by use and abuse testing performed in accordance with ASTM F963. The information need not all be placed together in one specific location, however. The following information must appear:

- The manufacturer or private labeler name (ultimate producer)
- Location of Production – specific location of manufacture – can be coded
- Date of Production – can be coded
- Cohort Information – batch or run number or other identifying characteristics such as a model or item number, if applicable. This information can also be coded, provided the manufacturer is able to use the number to trace back to the materials used in the manufacturing process.

The stickers on the tins currently display tracking information. In order to satisfy this requirement, with the exception of the 2" tins, which have no throw-away packaging, the information must also be included on the outer packaging included with the products.

**European Toy Testing Standards – EN 71**

Section

Result

**EN 71 Part 1: Mechanical and Physical Properties**

**Pass**

Methods were performed as per the European Toy Safety Standard EN 71-1:2011

The following sections of the regulation were assessed:

- 4.1 Sample was determined to be manufactured of new, clean materials.
- 4.7 The products do not contain any potentially hazardous edges prior to or following use and abuse testing.
- 4.9 The product does not contain any potentially hazardous sharp point prior to or following the applicable use and abuse test procedures
- 4.23 The 29 mm x 29 mm square magnet passes the requirements, as it does not fit entirely into the small parts cylinder. Small fragments were liberated by the drop test, however, due to their size and the strength of the magnet, no hazard is presented (the flux index of the fragments are less than 50 kG<sup>2</sup>mm<sup>2</sup>).
- 5.1 The packaging from each product includes a warning indicating the minimum age for intended use. Additionally, the putty itself is considered exempt from the general requirements for toys intended for children under 36 months.

**EN 71 Part 2: Flammability**

**Not Assessed**

Refer to European Toy Safety Standard EN-71-2:2011.

**EN 71 Part 3: Migration of Certain Elements**

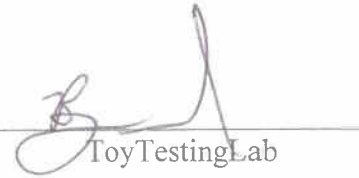

**Not Assessed**

Toxic Elements analysis, in accordance with European Toy Safety Standard EN 71-3:1995, was not performed.

Product: Crazy Aaron's Thinking Putty Product Line

**European Toy Testing Standards – EN 71 (cont'd)**

**EN 71 Part 6: Graphical Symbol for age warning labeling**

**Pass**

Refer to European Toy Safety Standard EN-71-6:1995. The product does not require any specific warnings. The bottom panel of the outer packaging for the 4" tins include an age-warning symbol, however, it is not accompanied by a description of any hazards.

**Phthalate Content:**

**Not Assessed**

Phthalate analysis, in accordance with the requirements set forth in Annex XVII Items 51 & 52 of EU REACH Regulation (EC) No. 1907/2006, was not performed.

**Cadmium Content:**

**Not Assessed**

Cadmium analysis, in accordance with requirements for EU REACH Regulation 1907/2006 Annex XVII Item 23, was not performed.

**European Toy Safety Directive – 2009/48/EC Labeling Requirements**

**Article 4 Section 5: Identification**

**Pass**

Toys must bear a type, batch, serial or model number or other unique element to allow for identification of the product. If the size or nature of the toy does not allow for this identifier on the toy itself, the information may be provided on the packaging or in a document which accompanies the toy.

**Articles 4 & 6: Contact Information**

**Pass**

The manufacturer or importer must display their name, registered trade name, or registered trade mark as well as an address at which they can be contacted on the packaging or on a document accompanying the toy. For manufacturers, the address listed must indicate a single point of contact.

**Article 11: Warnings**

**Pass**

User Limitations

**Pass**

Where appropriate for safe use, product labeling must specify user limitations which include at least the minimum or maximum age of the user and, where appropriate, the abilities of the user, the maximum or minimum weight of the user and the need for adult supervision.

Specific Warnings

**NA**

Required warnings must be clearly visible, legible and understandable on the toy itself, on an affixed label, on the packaging, and, if appropriate, the instructions for use.

**Article 16: CE Marking**

**Pass**

The product must display a CE Marking which is in accordance with the requirements of Article 30 of Regulation (EC) No 765/2008. The marking must be affixed visibly, legibly, and indelibly to the toy, an affixed label, or the packaging. The marking is displayed on the bottom panel of the packaging for the 4" tins, and on a sticker on the underside of the 2" tins. Refer to the attached image "6.28.13.pdf" which shows the sticker which the client has confirmed will be applied to the products prior to distribution.
